L. R. 1914 IX 15

24 April

My dear Sir

From 8 to 10 is now a
suitable period for the
examination of Jupiter,
the one object of importance
now in the evening sky.

Wheel

What I suggest is that his R.H. (if he finds next week (or the following) to be convenient) would chose two evenings, to have the chance of fair weather, which I would gladly reserve for his visit. Mondays & Thursdays are days on which I am very ill able to engagements in the Evening+

Yours truly
Lotus Phillips

Tuesday 28. Wednesday 29th
+ but Thursday 30th if free & 1. & 2 May are

Rev Dr Buckland

Lick Farm
Malvern
15 Aug 1862

My dear Dr Buckland

In Earthquake Registration
Report is only seen in
abstract in the Athenæum
& I am beginning to be
anxious about receiving it
in time for being included
in mr V Reeves. Perhaps
In Milne may have a
duplicate copy, or be in a

very methodical person. Shall
I write to him about it?

Hugh S Stirkland has
some beautiful specimens
in a Bone bed, found in
the vicinity of Abberley
i.e. of Tenbury. They
are of many sorts & are Beasts
as it was of a sort yesterday.

Your most truly
Ellen Phillips

Yorkshire Museum

Sir

I will lay your Prospectus of your Species Conchyliorum before our Society at its Decr. 6th & 7th next Meeting & will use all the means in my power to obtain you a subscription. We are poor & it will be desirable that I should know how many parts per annum, you think it probable will appear. In the mean time I wish you all the success which so magnificent an undertaking deserves & I can not permit myself to doubt that you will receive it. If you have not applied to Mr Dauby, of Swinton, send me some more prospectuses & I will put them in two or three hands here not unlikely to give you them

names. I think Bran of Scarho' is ~~on~~ on your list. —

We subscribe to your genera of Shells through our Bookseller, the last no received is No 30 I believe.

For how much ~~pr~~ annum can you supply Jermyn Street
Bulletin des Sci. Nat. et Geol. £2.14.0
Bruguiart. Ann des Sc. Nat. 2. 2. 0

I am Sir
very truly Yours
John Phillips
